POSTING REOPENED: September 10, 2018
DEADLINE: December 3, 2018
MIDPOINT REVIEW: October 15, 2018*

CALL FOR APPLICATIONS REOPENED

CASE FELLOWSHIP ON THE EMERGING CONTAMINANTS/PFAS PROJECT AT THE CONNECTICUT DEPARTMENT OF ENERGY AND ENVIRONMENTAL PROTECTION

The Connecticut Academy of Science and Engineering (CASE) is accepting applications for a Two-Year Science and Technology Policy Fellowship for the Emerging Contaminants/PFAS Project at the Connecticut Department of Energy and Environmental Protection (DEEP), Hartford, Connecticut, to begin between November 2018 and January 2019. Eligible candidates must have a PhD or equivalent terminal degree — or for engineers, a masters in engineering with three years of professional experience — in an environmental science-related discipline or public health with a focus on environmental toxicology. **PhD candidates will be considered if completion of their PhD is imminent** (see the *FELLOWSHIP APPLICATION* and *FREQUENTLY ASKED QUESTIONS* for more information).

This is an opportunity for a scientist/engineer to engage at the nexus of research and policy on a significant environmental and public health issue — emerging contaminants/per- and polyfluoroalkyl substances (PFAS).

APPLICATION DEADLINE: December 3, 2018 at 5:00 pm EDT

***MIDPOINT REVIEW:** Applications received by Oct. 15, 2018, will be reviewed by the CASE Fellowship Selection Committee. If a Fellow is selected from this pool of applicants, the CALL FOR APPLICATIONS will be closed prior to the Dec. 3, 2018 Deadline. Changes to the Deadline can be viewed/verified via the following:

- Electronic change notice transmitted to all sites that received the CALL FOR APPLICATIONS
- Change notice posted on the CASE Science and Technology Policy Fellowship Program webpage at www.ctcase.org/fellowship.html
- Contact Terri Clark at CASE at 860/571-7143 or tclark@ctcase.org

APPLICATION AND RELEVANT INFORMATION

- FELLOWSHIP APPLICATION
- APPLICATION INSTRUCTIONS
- PLANNED SCOPE OF WORK
- FREQUENTLY ASKED QUESTIONS – including Selection and Placement Information, Timeline, and Eligibility Information

This Fellowship is an opportunity to transform a researcher's professional path. Some researchers that have completed Fellowships opt to remain in public service, while others return to academia, nonprofits, or industry with a deeper understanding of how science informs policymaking, enhancing their career as researchers, professors, consultants, and leaders.

CASE seeks to identify a diverse pool of candidates, including broad representation from individuals at different career stages, gender, age, race/ethnicity, physical ability, geographic location, and institutional affiliation.

About the Connecticut Academy of Science and Engineering

The Academy is a non-profit institution patterned after the National Academy of Sciences to identify and study issues and technological advancements that are or should be of concern to the state of Connecticut. It was founded in 1976 by a Special Act of the Connecticut General Assembly. The Academy's goals are: to provide information and advice on science and technology to the government, industry and people of Connecticut; to initiate activities that foster science and engineering education of the highest quality, and promote interest in science and engineering on the part of the public, especially young people; and to provide opportunities for both specialized and interdisciplinary discourse among its own members, members of the broader technical community, and the community at large. For more information about the Connecticut Academy of Science and Engineering please visit our website at: www.ctcase.org
